

To whom it may concern:

We are constant listeners to K-LOVE in the Kalispell MT area and where ever we go. We love this station and would pray that it would continue to broadcast in the same manor it has in the past. We have listened for several years and our children have grown up listening to this wonderful station. It helps us to keep the love of Christ in our thoughts and mind while driving or in our home. We would like the oversight to remain as it is now, not having a single board for oversight. The additional staff that will be required would strain the financial resources of this essential ministry. The transmission of our local station is not a low power fm transmitter and we would like you to consider leaving the transmission station the way it is now.

Sincerely,

David Potter
